

# **Mayonnaise Dressings**

**Limitech**

**Customer:** Scandic Food, Brand: Svansø, Country: Danmark  
**Product:** Mayonnaise, Dressing, Ketchup, Sauces, Remoulade

The trademark Svansø is owned by Scandic Food A/S. Svansø is known all over Denmark for their high quality within all categories they are operating, and we are of course very proud to be able to add Svansø to our reference list.

In 2009 the operation in Nr. Aaby purchased a 1000 l. FiNO® system from Limitech. The FiNO® system is customized especially for the production of mayonnaise, dressings, ketchup and sauces, but Svansø wanted to produce jam and remoulade on the system as well. Therefore the system was customized so ingredients such as creme fraiche, milk, sugar etc. can be added. The result is a multifunctional system with very high capacity. Apart from the fact that Svansø have reached a very high capacity and uniform quality, they have now also a faster filling process as their products contain less air.

SAUCE + MAYONNAISE + DRESSING + KETCHUP

**Customer:** Jütro, **Country:** Germany

**Product:** Mayonnaise, Dressings, Ketchup, Sauces, Remoulade

**Limitech**

Jütro is a 100 year old company located near Berlin, Germany.

The company has traditionally produced pickles such as cucumbers, mushrooms etc. Jütro is owned by the company I. Schroeder, Hamburg, and on account of their organization Jütro is now a producer of Fine Food such as ketchup, dressings, sauces and mayonnaise. Their main customers are ALDI and LIDL.

Limitech has delivered 2 x 1000 l. FiNO® systems, with a total capacity of up to 8 tons of mayonnaise and 4 tons of ketchup per hour. Due to the build-in cleaning system Jütro can quickly change over to production of other flavours and to products such as dressings and sauces. The two FiNO® systems were delivered within 3 years, which proves the importance of an ef-

fective production with a high flexibility. The systems have given Jütro the needed flexibility to be able to meet the demands from the modern customers when it comes to product assortments. The products from Jütro are price winners due to their high standards within hygiene and quality.

We are proud to have Jütro as customer.

**Customer:** Viciunai, **Brand:** VICI  
**Country:** Estonia , **Product:** Mayonnaise, Fishsalad

The Vici brand name is known to virtually everyone in Estonia – Vici is the best-known trademark in

the fishery product group in the entire Baltic area\*. Under the Vici brand name products are marketed all over Europe, as well as in the USA and even Israel.

The Vici trademark in Estonia designates mainly frozen and refrigerated fish and seafood (a total of over 200 products), as well as products from surimi (nearly 40 items). Vici is the biggest in the herring product group, offering Estonian buyers a total of over 50 different herring products.

tion controlled food products to the airline industry.

B.I Limited holds BRC accreditation at higher level allowing us to act as a third party supplier of components to other manufacturers. The end products encompass both savoury and sweet retail offerings often traded under a multiple retailers own label.

B.I Limited is a privately owned company which was established in 1982. Originally based in West London and close to Heathrow Airport, B.I Limited quickly became recognised as a supplier of por-

**FiNO®**  
SAUCE + MAYONNAISE + DRESSING + KETCHUP

**Customer:** Troy Foods  
**Country:** England , **Product:** Mayonnaise & Dressings

The BRC approved mayonnaise production unit lies within the Salads manufacturing location and produces a wide range of dressings and mayonnaise.

We offer mayonnaises and dressings made from conventionally reared or free range eggs, with traditional stabilising systems or utilising 'clean' store cupboard ingredients that are increasingly required. These can be ambient stable or can be chilled through our in-line systems, according to the application and the product's recipe. Gluten free range? Our mayonnaise is used in a wide range of applications from catering, sandwiches, salads, savoury dips, fillings or toppings. It is available in 2.5, 5 and 10 litre pails upto 1 tonne palecons.

Our customers for these products include retailers, food service, wholesalers and other food manufacturers.

**Customer:** Zorba Foods  
**Country:** Wales, **Product:** Mayonnaise & Dressings

Our story began in 1976 when Robert Babakian, a Greek-Cypriot national living in North London noticed that Houmous was not widely available. Recognising the increasing demand for the product and quick to spot a business opportunity, he decided to create his own Houmous dip made from a traditional Greek-Cypriot recipe. Zorba Delicacies Limited was born.

of more than 80 product lines, Zorba was then sold in 2003 to The Entrepreneurial Food Group. Further expansion led to a new state of the art factory which was built in 2006 next door to the original site.

In 2011, a new soup production facility for The Real Soup Co was completed, further increasing the product range available and providing additional space for future development.

Today...From humble beginnings, Zorba Delicacies has grown into a multi-million-pound manufacturer of dips, deli fillers and soups.

In 1996, Zorba Delicacies was purchased by private investors and in 1998, a new factory was built in South Wales to allow for product range expansion.

Having grown to a range

We have been involved in their brand "Knorr" which among others produces Salsa Sauce for the Irish and English market.

The system consists of a 3000 l. batch-mixer, used first to make the basic sauce and then gentle mix added particles such as red and green pepper and other vegetables. Further a 4000 l. buffer tank is integrated. The system is controlled by a user-friendly PLC system to ensure a uniform quality with a minimum of human intervention. This will minimize errors that might arise when several operators handle the system.

**Customer:** Samsø Konserver / Katrine og Alfred Ketchup  
**Country:** Denmark , **Product:** Ketchup & Sauces

The garden-  
ing nursery  
was founded  
in 1948 by  
Katrine &  
Alfred Peder-  
sen. It started

with two small greenhouses, where it was grown cut  
flowers. Soon was built several greenhouses, and  
cut flowers were replaced with cucumbers. In 1976  
started Katrine & Alfred to grow tomatoes, which  
were sold at the auction in Odense.

We began in 1982 as the first in Europe to supply  
tomatoes picked directly in the hills, and in 1995 we  
began to supply our tomatoes under the trademark  
"Katrine & Alfred" tomatoes.

Today Katrine & Alfred's son Mads both manager  
and owner of the nursery Alfred Pedersen & Son  
Ltd., and he is the fourth generation of gardeners in  
the family.

Today KETCHUP is also on the menu and a big suc-  
ces in Denmark.

**Customer:** Samsø Konserver / HOLM  
**Country:** Denmark , **Product:** Ketchup, Sauces & Jam

Claus Holm an important part of the COOP project 'Together for better food', which focuses on bridging the gap between producer and consumer, with the aim of bringing the taste at eye level. Recently he has also been behind the launch of the kitchen series HOLM.

Claus Holm has always worked with food, and the peace and the joy he finds in working with fresh ingredients, recipes, good cookware and flavor development in his kitchen workshop, giving him daily confirmation that he is on the right track, "I cook , flavor develops and lecturer - and the person with a desire to make a difference. In my kitchen can all be done. "

**Limitech**

**Customer:** Fonterra Saudi  
**Country:** Saudi Arabia, **Product:** Cheese

Fonterra is a global, co-operatively-owned company with its roots firmly planted in New Zealand's rich land, working to unlock

every drop of goodness from the 22 billion litres of milk we collect each year and sharing it with the world.

Supporting our farmers, we have 16,000 passionate people in New Zealand and around the world working to make dairy available to millions of consumers in 140 countries every day.

Limitech have two lines installed and they have been running for 12 years 24 hours a day.

**Customer:** Danvigor / Arla (Brand Danubio)  
**Country:** Brazil, **Product:** UHT processed Cheese

Danubio has the strength and experience: FOOD FORCE - JBS, the largest refrigerator in the world group and ARLA FOODS one of the ten largest dairy companies in the world. It was with this knowledge that the brand has revolutionized the Brazilian market by launching the first fresh cheese in plastic pots, obtained by ultrafiltration technology, and lines of lysoste.

The quality of Danubio products are also in its philosophy as a company that manufactures products not only quality but also inspire, innovate and bring the best to the days of their consumers. Celebrate a healthier life, uncomplicated, with fewer rules

and more flavor. Enjoy every moment with freshness simply. A company that wants its customers to know exactly what they eat, enjoy a healthy breakfast, a snack of fresh baked afternoon and light, uncomplicated meals. Danubio is synonymous with quality, technology and intelligence, at all stages, from raw material to consumer.

**Customer:** Falengreen, **Brand:** Falengreen, etc.  
**Country:** Denmark, **Product:** Processed cheese, Analog cheese

The company DK1 AS was founded in 1989 by the proprietor, Mr. Ole Falengreen Nielsen. Over

the years Falengreen has acquired some strong competences within the cheese and dairy sector, and it has achieved a strong position in several export markets and not least in Denmark.

Limitech have supplied a cheese system for the production of processed cheese and analog cheese. The main product is Pizza toppings and also special products as the dip pot.

The system features a closed pressurised heating system with recirculation of glycol. The system is very useful in cheese production as you can control the delta T value between the heating surface and the product to avoid burning on the side wall.

**Customer:** Valio, **Brand:** Viola, **Country:** Finland  
**Product:** Cream Cheese

Valio is the biggest dairy group and the biggest brand in Finland. Valio is an international supplier of dairy products and of ingredients. Limitech has delivered a system for the production of cream cheese and jam. We have delivered a whole system for their brand "Viola".

The system has a capacity of 1 ton pr hour.

We were chosen as supplier for Valio partly due to our long engagement in Finland and partly due to our flexibility in the build-up of complex systems. The dialog is extremely important to be able to achieve the expectations to a system on which so many resources have been used in the development and build-up stage. It is very important for us that the customer feels

safe during this process and therefore we do not start any machine build-up until we have tested the product(s) that has to be produced on our system.

We spend the necessary time to fine tune the products on our 10l. lab mixer before we start production. The 10 l. lab mixer is fully scalable to big systems and as we have many years of experience in dimensioning full scale systems.

**Customer:** Mlekara Subotica  
**Country:** Serbia, **Product:** Soft Cheese

AD Mlekara was founded on March 4th, 1955 under the name "Co - operative Dairy - Independent Business Organiza-

tion ". A group of twenty people with a few milk cans and a horse and carriage, had an ambitions task to supply the people of Subotica with milk and other dairy products.

Mlekara Subotica had processed more than 1.3 billion liters of milk. The quantities processed today are one hundred times more than at the very beginning! During 2003, the full automation of the fermented dairy product plant was finished, and it consisted of new equipment for milk standardization, milk and fermented cream pasteurization and homogenization, fermented dairy product production (yogurt, fermented milk, fermented cream, new probiotic and low-calorie drinks).

**Customer:** Mackie's of Scotland, **Brand:** Mackie's of Scotland  
**Country:** Scotland, **Product:** Ice Cream Mix

**MACKIE'S**  
*of Scotland*

Mackie's of Scotland is a family owned company in the hands of the fourth generation.

There are 70 employees at their factory and they produce more than 10 million litres of luxury ice cream each year.

The company is very dynamic and constantly chasing new ways to exploit their capabilities and know-how. We supplied 2 x 2500 liter mixers for mixing of ingredients to the finished ice cream mix before it is refrigerated.

Limitech were selected based on the quality and speed as we can make their product, several tests was conducted against other suppliers in the same kategori. Limitech's results was best and we can today say that we are an important part in making Mackie's luxury ice cream that is loved by many Scots.

**Customer:** Green Spot  
**Country:** Thailand, **Product:** Soy Milk with Chocolate

Since the founding of the company in April 1954, Green Spot's main mission has always been to produce and distribute quality beverages for our consumers

and customers. The proof of our success lies nowhere other than in the overwhelming responses we have received over the years. Since its launch, our Green Spot, Thailand's first non-carbonated orange drink, has proved very popular. Our Vitamilk was the nation's first bottled soymilk and has remained the best-selling soymilk in Thailand ever since. Today, in addition to Green Spot and Classic Vitamilk, we also manufacture many varieties of soymilk to meet current market's diverse demands. Vitamilk Champ has been developed especially for children, Vitamilk J-Soy milk for vegetarians, and V-Soy for health-conscious individuals.

# LIMIX®

## SOL 3 - 100 Liter

**Customer:** LU, **Country:** Finland  
**Product:** Pectine Dissolving

LU is part of the Kraft Group and manufactures biscuits with chocolate coating and various dessert cream biscuits. Today they use our SOL mixer for their pectin solutions.

Pectin can be difficult to dissolve and it may take a long time before it is completely dissolved. Our mixer takes about 3 minutes to dissolve the pectin and it can be done in warm water at 30-40 degrees. The end product is completely free of lumps or "fish eyes".

The advantage is that it releases capacity in the rest of the cooking process. We have experienced that you can save up to half an hour in a production just by adding our LiMiX SOL 3.

**Customer:** Rõngu Mahl / Küllus  
**Country:** Estonia , **Product:** Jam & Marmelade
