the World**

BUSINESS AND ETHICS

OUR VALUES

Customer oriented

Bardiani Valvole stands for its attention to the customer.

From listening to customers' requirements to after-sales assistance.

As well as the technical skills, for Bardiani it is also essential to rate: honesty, respect, transparency and social responsibility.

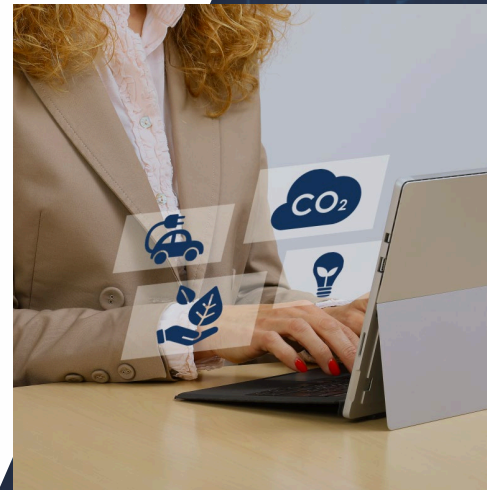

Those values are declared and stated in the Code of Ethics

EXPERTISE

QUALITY

SUSTAINABILITY

RELIABILITY AND SERVICE

VALUES

EXPERTISE

*Training, high specialization,
years of experience*

Ongoing staff trainings are essential - to guarantee high level of employee's specialization, to enable a proactive customers' support and to establish a sense of pride in being part of the clients' success.

OUR VALUES

QUALITY

Products, service, processes

Many years of experience in valves development and design, together with raw materials quality, selection of EU certified suppliers, and finishing details to processes controls: everything is done to offer best quality valves.

Our customers install valves that last over time, minimizing maintenance and repair costs, supporting a more sustainable industrial process.

VALUES

SUSTAINABILITY

Environment, economic, social

Tangible actions are implemented aimed at the increasingly pressing process of corporate eco sustainability: renewable energies, sustainable mobility and waste reduction.

Bardiani Valvole identifies sustainability practices not only in environmental, but also in economic and social concept.

Growth is based on the promotion business strategies based on sustainability policy.

VALUES

RELIABILITY AND SERVICE

*Products, people,
customized services*

Attention to customer means listen to their needs and respond with concrete solutions.

Bardiani provides a team of specialized technicians able to offer a pre and post sales assistance aimed at satisfying the specific requirements of the customer.

VALVES

PORTOFOLIO

Why choose Bardiani valves?

By choosing Bardiani hygienic valves our customer may count on essential key points:

- Complete valves portfolio
- Customization
- Quick and reliable technical support
- Convenient Total Cost of Ownership
- Easy maintenance
- Certifications

DOUBLE SEAT VALVES

SINGLE SEAT VALVES
